Charter of the Kingdom of Dixie

I. Since the fall of the government of the Confederate States of America in 1865, the people of Dixie have lacked a state that represents their interests. The United States Federal Government, as well as the state governments of Virginia, North Carolina, South Carolina, Georgia, Florida, Tennessee, Alabama, Mississippi, Louisiana, Texas, Arkansas, Missouri, and Kentucky have ceased to be legitimate due to their inaction and unwillingness to represent and protect the interests of the people of Dixie. These states are now mere puppets of the tyrannical federal government. Additionally, the so-called state of "West Virginia" has never been legitimate and is the rightful property of Virginia. I, William Tyler Spaugh, establish the Kingdom of Dixie on this twentieth day of July 2025 to represent the interests of the people of Dixie. This Kingdom is the full successor state to the original Confederate States of America. There is no other successor state to the Confederate States of America, and there can be no other such successor state in the future.

II. All governmental authority will be vested in one king. The first king of Dixie is William Tyler Spaugh of North Carolina. The king has full authority to modify this Charter, including the potential conversion of this Kingdom into a different form of government in the future, but sections I, III, IV, and V may never be modified in any way. This section may not be modified to allow for the modification of sections I, III, IV, or V.

III. The existence and survival of this Kingdom is predicated on the completion of certain conditions. These conditions include the successful completion of a game of Victoria III. The beginning of this game of Victoria III will be livestreamed on the YouTube channel @grovetyler starting at 10 p.m. eastern time on July 20, 2025. This livestream will last until at least two in-game years pass. I must record and upload every moment of the game during which the game is not paused. I must complete this game without prematurely hitting the game over screen. I must then upload all videos of this game and along with the original stream they must never be deleted. That version of the Confederate States of America will serve as a representation of this Kingdom of Dixie, and any lands controlled in that game will be claimed by this Kingdom. This must be completed prior to my death.

IV. The United States Federal Government will have the opportunity to directly challenge this realm in a multiplayer match. This charter will be sent to the official White House X (formerly Twitter) account at least 20 minutes in advance of the beginning of the stream. The United States Federal Government may then coordinate to have as many players as it wishes join this stream in a multiplayer match by emailing SouthernUNContact@proton.me and expressing their desire to challenge this realm in a multiplayer match. If no email is delivered to SouthernUNContact@proton.me by the start of the stream, then the United States Federal Government is implicitly agreeing to have the game's AI stand in for itself.

V. This Kingdom formally applies for United Nations membership. The Kingdom of Dixie accepts the obligations contained in the UN Charter. Before the UN General Secretary, I and the Kingdom of Dixie preemptively renounce any other attempt to form a state for the people of Dixie. Any such attempt in the future, whether by me or someone else, is illegitimate. Before the General Secretary, I declare that any past attempts by me are also illegitimate.

So help me God,

-William Tyler Spaugh, King of Dixie, July 20, 2025
